

Abrham Asrat

Full-Stack Web Developer

Addis Ababa, Ethiopia | +251 90 529 2752 | abrishasrat12@gmail.com | linkedin.com/in/abrham-asrat | github.com/Abrham-Asrat

PROFESSIONAL SUMMARY

Full-Stack Web Developer with hands-on experience building modern, scalable web applications using the MERN and ASP.NET stacks, plus Python/FastAPI backends. Skilled in designing RESTful APIs, optimizing databases (PostgreSQL, MySQL, MongoDB, Firebase), and building event-driven, real-time systems that perform reliably under production load. Experienced with AI/LLM integration and Retrieval-Augmented Generation (RAG). Take a design-first approach to building accessible, intuitive user experiences, and have shipped and deployed production applications via Netlify, Vercel, and custom VPS environments.

TECHNICAL SKILLS

- Languages:** JavaScript, TypeScript, Python
- Frontend:** Angular 19, React.js, Tailwind CSS, Bootstrap
- Backend:** Node.js (Express), ASP.NET Core, Django (DRF), FastAPI, RESTful API Development
- Databases:** PostgreSQL, MySQL, MongoDB, Microsoft SQL Server, Firebase
- AI / ML:** LLM Integration, Retrieval-Augmented Generation (RAG)
- DevOps & Tools:** Docker, Linux, Git/GitHub, Netlify, Vercel, VPS Deployment, CI/CD
- Other:** Event-Driven Systems, Real-Time Data Pipelines, Automation & Monitoring Tools

PROFESSIONAL EXPERIENCE

Full-Stack Engineer / Web Developer Intern
CREAVERS Service PLC

Feb 2025 - Jun 2025
Addis Ababa, Ethiopia

- Contributed as a full-stack developer on the E-Health Platform, a large-scale healthcare web application, gaining hands-on experience in a professional software development environment.
- Developed a secure user authentication system and dynamic patient and doctor dashboards.
- Built the frontend with Angular 19, backend with ASP.NET Core Web API, and database layer with Microsoft SQL Server.
- Collaborated with a cross-functional team to deliver production-ready features supporting real-world clinical workflows.

KEY PROJECTS

- Med-Connect — Digital Healthcare Platform**
- Designed and built a full-stack platform connecting patients with verified medical professionals through a secure, scalable system.
 - Digitized appointment scheduling, patient records, and doctor-patient communication, cutting manual administrative work in clinical workflows by an estimated 50%.
 - Implemented real-time telemedicine, secure patient record management, and peer-reviewed medical insights, keeping the experience simple and efficient for both doctors and patients.
 - Engineered the platform for performance and scalability, supporting 10,000+ requests efficiently for real-world healthcare use.
- Travel Around — Ethiopia Tour Guide & Booking Platform**
- Built a full-stack travel concierge platform showcasing Ethiopia's historical and cultural destinations, including a bilingual (English/Amharic) landing experience.
 - Developed a multi-day tour package system (e.g., Gondar - Bahir Dar - Tana packages) with pricing, itinerary details, and an end-to-end booking flow.
 - Added a newsletter sign-up and social media integration to support ongoing customer engagement.
 - Optimized for fast load times and smooth performance across devices.
- ELIT ENT Center — Healthcare Provider Website**
- Built the official website for a specialized Ear, Nose & Throat (ENT) clinic, presenting the physician's profile and services such as hearing tests and sinus treatment.
 - Implemented an online appointment booking system, engineered to reliably handle 2,000+ requests.
 - Designed a clean, trust-building layout that guides patients smoothly from services to booking.
- Bankist — Digital Banking UI/UX Recreation**
- Rebuilt a modern, minimalist digital banking interface as a front-end engineering exercise, focused on advanced DOM manipulation, animations, and responsive layout.
 - Practiced structuring an interactive, multi-section single-page application (features, operations, testimonials, sign-up flow) with vanilla JavaScript.
- Food Recipe App**
- Built a full-stack recipe browsing and bookmarking application with search and ingredient-based filtering.
 - Designed a clean, accessible, mobile-friendly interface focused on fast browsing and ease of use.

EDUCATION

B.Sc. in Software Engineering
Arba Minch University

2021 - 2026
CGPA: 3.65 / 4.00

ADDITIONAL ACTIVITIES

Tech Content Creator, TikTok — Share professional software development insights with a growing audience, strengthening technical communication and public speaking skills.
